- Club Trail South Range- Al M. dozing since Sunday. It's nice and wide to the stream. Will start working on grading by Highway 2 tomorrow. Currently working around wet lands as required. There are 3 locations where we could potentially need bridges. Needs to be looked at further for evaluation. Weather/ rain may cancel new grading. Some sections need to still be brushed. Bruce B and Eric will evaluate remaining tasks and do inventory for signs.
- Trail 6 bridge at Little Steele Creek- Al M. discussed a letter from Christine Ostern- estimates for replacement are \$42,000-\$44,000- arched culvert design. The project will not be complete before this winter.
- Minnesuing Connector Trail- Work detail complete in early June to open access to Lake Nebagamon- Land owners still need to complete remaining easements- Discussion on fence to surround some hazards. Signage is needed to help keep users on the trail. One land owner has a concern about people straying from the trail.

Northwest Trails Association:

- Discussed timeline for new ATV Road Routes applications.
- Trail pass process- going smooth. 3000 permits through AWSC so far. There were a few initially that were messed up
